Luxe Pools & Landscaping

Our Mission

Our client-first mentality has made us the top-rated pool and landscape builder across Arizona. At the core of our mission is to build nothing but immaculate pools and landscapes, ensuring that every client's expectations are not only met, but blown out of the water.

Our Vision

Luxe Pools and Landscaping has an evident vision to be the best pool and landscape designer, and builder. From conception to the final build results. We strive to be the number one pool and landscape builder in all of Arizona.

Why Choose Us

Our team of pool and landscape building gurus have more experience than any other company in Arizona. We have built a team consisting of the best of the best in the pool and landscape contracting industry. Above and beyond our skill level and experience, our superior client relations and customer service give us a step above our competition.

Where Design, Craftsmanship, & **Beauty** Meet.

From Conception

+ Initial Consultation

We hold an in-depth consultation and discovery session with all of our clients to grasp their vision for their new pool and/or landscape. During the consultation we are able to uncover your exact wants and needs, then partner that with our design expertise to deliver the perfect design.

+ 3D Renderings

Our 3D rendering and the architectural team will bring your vision to life before a single shovel hits the ground. After the initial consultation, we will work tirelessly to articulate, design, and develop the perfect pool and landscape, then present it to you for approval.

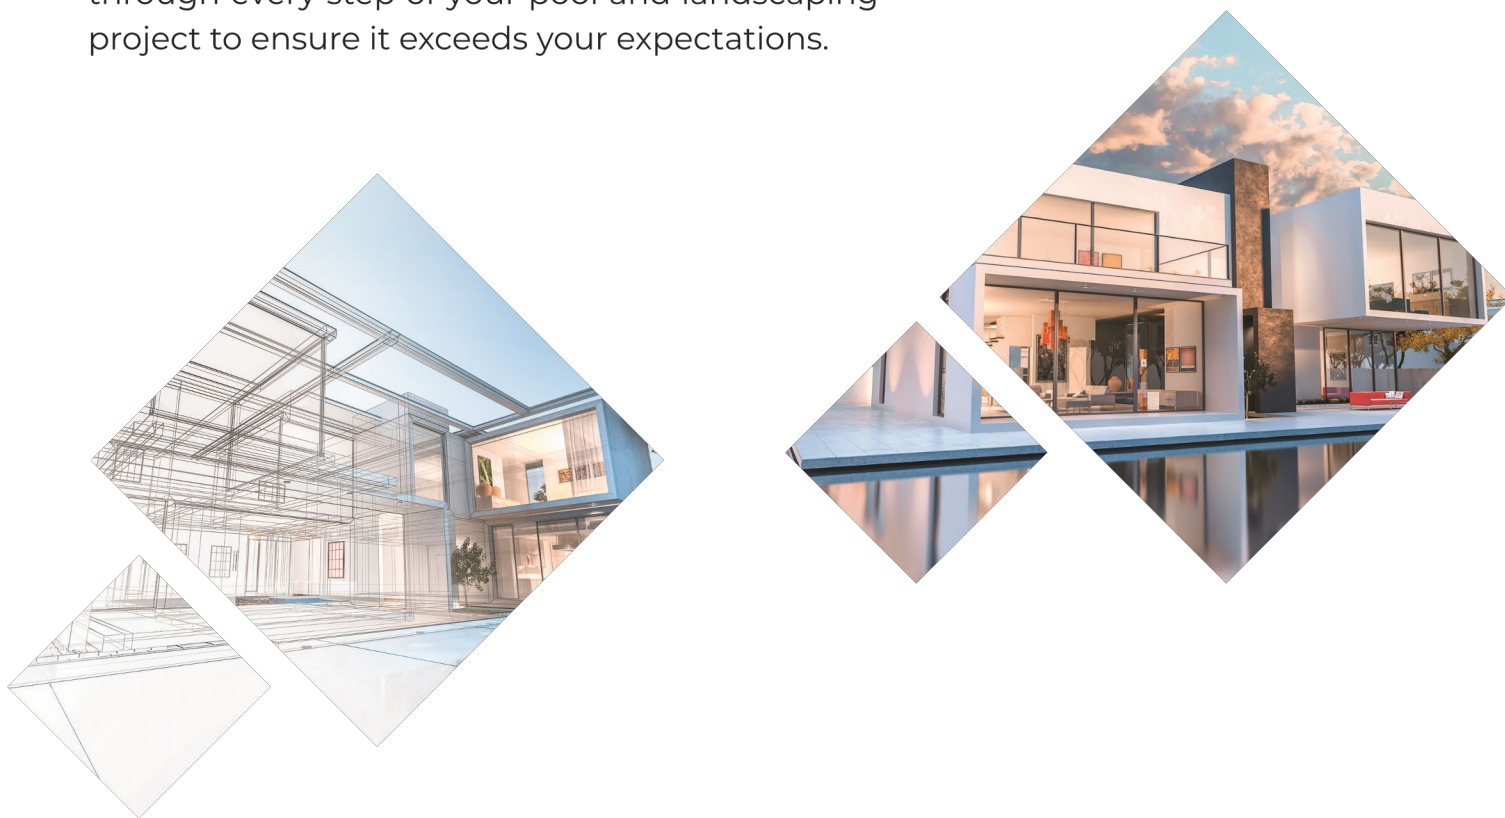

To Perfection

+ Perfection in the Finished Project

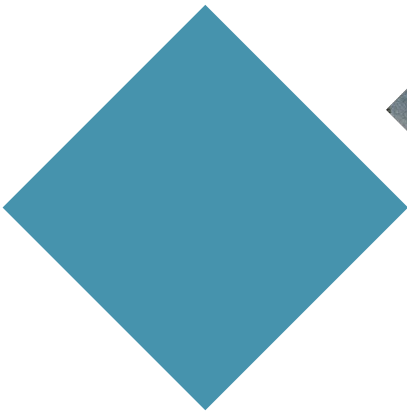

We have an eye for detail and are some of the best in the industry when it comes to pools and landscaping. We will work closely with you through every step of your pool and landscaping project to ensure it exceeds your expectations.

Breathtaking Residential Pools

Large, medium or smaller size residential pools, Luxe Pools and Landscaping will design and build the perfect pool for your home. Our process begins with a no-obligation 3D rendering, then we move to the actual architectural drawings and blueprints. Once you approve them, we start your new pool build immediately.

All of our custom pool builds are one of a kind unless you, as the client, choose a pool design that has already been created. We design and build every pool as if it were being built at our own home, with a keen eye to detail and unsurpassed quality. Make the smart choice when choosing your pool contractor and select Luxe Pools and Landscaping.

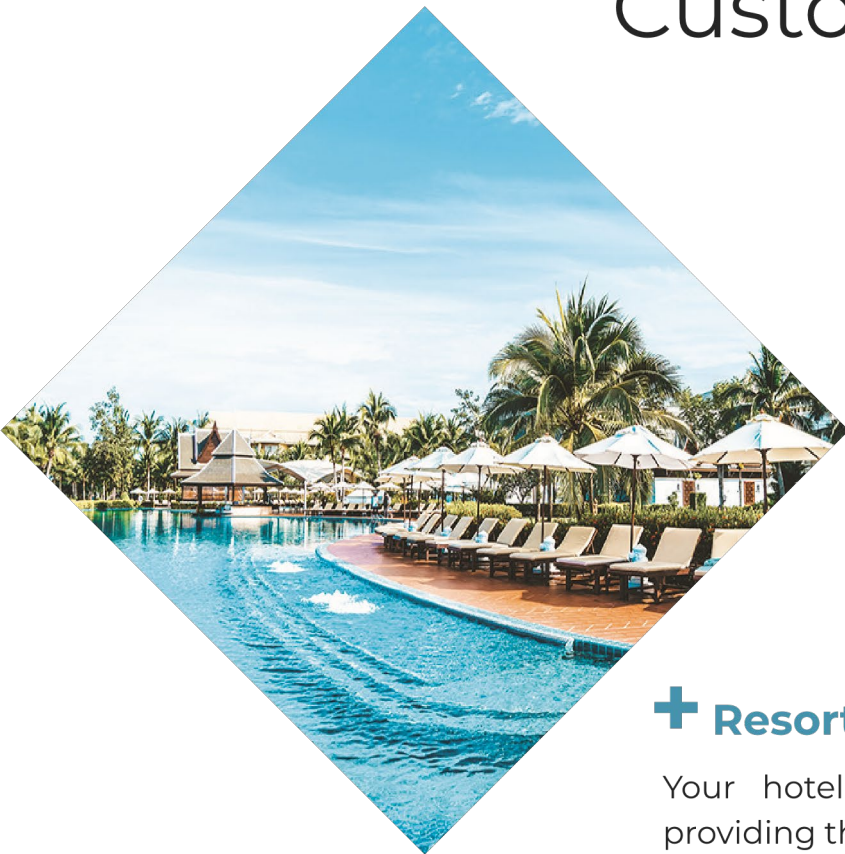

Finally, an Arizona Pool Builder With an **Eye for Detail.**

+ Resorts & Hotel Pools

Your hotel or resort's business depends on providing the best customer experience possible. Cater to your clients by partnering with Luxe Pools and Landscaping to build the perfect pool.

+ Park & Public Pools

We work closely with Arizona cities to design and deliver public pools to their local communities. Work with Luxe Pools and Landscaping; Arizona's top public pool designer, builder, and contractor.

+ Community Pools

Gated, non-gated, and luxury communities increase their value and appeal to potential homeowners and renters when they have a beautiful private pool within the community.

Breathing Life Into Your Landscape

+ Residential Landscaping

No matter the yard size, terrain, or location, we have the know-how, experience, and eye needed to bring a unique lush, or desert style landscape to your home. Let our team design a 3D rendering to show you the possibilities when it comes to your new Arizona landscape.

+ Commercial Landscaping

Luxe Pools and Landscaping has been the number one choice in commercial landscaping services for decades, and never cease to amaze our clients with both design and landscape contract services. Our professionalism and eye for detail are what sets us apart from your run of the mill landscaping contractors.

Delivering Unsurpassed Beauty to Your Home

A collage of three photographs showing different landscaping styles: a desert-style landscape with gravel and cacti, a lush green landscape with various shrubs, and a stone and block landscape with a tiered design. The photos are arranged in a diamond shape, with a light blue diamond at the top, a green diamond at the bottom, and two white diamonds in the middle containing the photos. The background is white.

+ Desert-Scape Style Landscaping

Desert style landscaping does not mean it has to be limited, we have been building desert-scape style landscaping for two decades and will help bring your home to life with a new desert-themed landscape design, layout, and build.

+ Lush & Green Landscaping

Living in Arizona does not mean you are stuck with gray, dull or desert style landscaping. Our team of green thumb landscapers are versed in creating green, lush, and lively landscapes that will make any home shine with curb appeal.

+ Stone, Pavers, & Block Landscaping

Stone, pavers, and block additions to your landscape will help give your home a luxurious and clean look. By introducing these elements into your landscape, we can build tiers, sectioned landscape designs, and even increase the value of your home.
